STORY & CHARACTERS

The origins of the Mana Tree, source of all life, can be traced to the captivating story of a youth, a maiden, and a sword — a tale that became legend.

Long, long ago, when the world was still flat, back before humans knew of magic, a tiny yet beautiful island named Illusia floated in the very center of the ocean.

In those days, five great countries flourished on the continent of Fa'Diel: *Jadd*, land of sand; *Topple*, land of water; *Wendell*, land of green; *Ishe*, land of fire; and *Lorimar*, land of ice.

All in Fa'Diel believed the isle was holy, protected by a guardian beast. No one dared to set foot there.

On the island, there stood an enormous tree that existed long before the world began. It was believed to be the mother of every living thing in the world.

But over the years, the tree gradually turned to stone. For a long time it slept, appearing to some as if it were dead.

This is the story of how it all began, of how a certain young man came to possess a sacred sword and how a certain young maiden became a goddess of Mana. It is a winding tale of hope and despair, connecting the worlds of humans and spirits...

KELDRIC

FLOATED TO ILLUSIA AS A BABY, RAISED BY THE VILLAGE ELDER. THOUGH PHYSICALLY DIFFERENT FROM TREE FOLK, KELDY SHOWS LITTLE INTEREST IN HIS PECULIAR ORIGINS.

RITZIA

KELDY'S CHILDHOOD FRIEND. ALTHOUGH HER ROLE AS MAIDEN OF THE GREAT TREE IS PRIMARILY CEREMONIAL, SHE IS KEENLY ATTUNED TO NATURE.

STROUD

THIS YOUNG KING OF LORIMAR HAS REIGNED SINCE THE AGE OF SEVEN. HE INVADDES ILLUSIA TO GAIN ACCESS TO THE UNHOLY POWER THAT LIES BEYOND THE OMINOUS PORTAL TO MAVOLIA, HIDDEN BENEATH THE GREAT TREE.

GAME PLAY

Dawn of Mana is an action-adventure game in which the protagonist Keldric battles enemies, manipulates objects in a myriad of destructive ways (p. 22), and discovers ancient tricks and traps!

CHAPTERS

The story of *Dawn of Mana* is divided into chapters, all of which must be cleared to complete the game. A chapter consists of several sections with save points in between (p. 6). You'll be able to activate emblems (p. 25) at the start of each chapter, which can dramatically affect gameplay.

SECTION 1

SAVE POINT

SECTION 2

MEDALS

In each chapter you can gather three types of medals (p. 26) to strengthen Keldy's abilities. ATK medals raise whip level and attack power (p. 18). MP medals increase max MP as well as Faye's magic level and spells (p. 20). HP medals boost max HP.

NOTE: Abilities and levels revert to their initial stats at a chapter's end.

RESULTS

After you complete a chapter, your overall results, such as time elapsed, number of foes defeated, etc., will appear on screen and be graded on a scale of S, A, B, or C. Press the **X** button to proceed to the save menu, and then advance to the next chapter.

SPECIAL KEYS AND ORDINARY KEYS

You will find locked doors during stages. A mark appears above Keldy's head when you approach a door that requires a key. You will be able to open the door after you acquire the correct key. There are two types of keys: special and ordinary. Each key opens a different kind of door.

HOW DO YOU FIND KEYS?

Most keys are carried by enemies. Keep your eye on the doors on the radar (p.12), find the enemy with the key, and defeat him.

OBTAIN A KEY BY DEFEATING THE ENEMY WHO HOLDS IT.

APPROACH A LOCKED DOOR WITH THE APPROPRIATE KEY, AND IT WILL OPEN.

GAME OVER

The game ends when Keldy's HP (p. 13) hits zero, giving you the following options.

LOAD DATA—Start from a previous save point with Keldy's saved stats.

REPLAY CHAPTER—Start the chapter over again with Keldy's initial stats.

QUIT—End your game and return to the main menu.

FIELD SCREEN

Useful information, such as HP/MP/ammo levels and enemy positions, appears on the field screen to help you safely guide Keldy through each area.

Push the left analog stick all the way in any direction to make Keldy run. Push it slightly to make him walk. Watch your step in tight places.

JUMP: X button

Press the X button to jump, or press and hold for a longer jump. To reach high places, press the X button again while he's in midair to make Keldy perform a double jump. Use this technique to leap across wide gaps.

GUIDE TO CONTROLS

Access the controller guide by pressing the SELECT button. Then press any button to review an explanation of its functions. To exit the menu, press the SELECT button again.

BLOCK (CENTER CAMERA):

L1 button

Press and hold the L1 button to defend against frontal assaults. The camera will automatically center behind Keldric.

SIDESTEP: L1 button + left analog stick

Use the left analog stick while blocking to move in a guarded stance in any direction.

BASH: L1 button + O button

Press the O button while blocking to send an object or foe in front of you flying (p. 22).

DODGE: L1 button + X button

Press the X button while blocking to perform a somersault. Combine this with strategic use of the sidestep for quick evasive action.

ACTIONS: WEAPONS

Keldy has three types of weapons at his disposal: sword, whip, and slingshot. Keldy will only make it through if he can master all of these tools!

SWORD STRIKE: button

Press the  button to execute a straightforward slash. This basic attack can inflict steady damage on foes and objects.

Number of consecutive hits

COMBO STRIKES: button (Press repeatedly)

Press the  button repeatedly to execute a combination attack. The number of strikes in a combo rises with your whip level (p. 18).

JUMP STRIKE/DOWNWARD STRIKE: button + button

As Keldy jumps up, press the  button to perform a jump strike, extending his reach to hit enemies above him. You also have the option of holding the  button during a leap to land a downward strike on foes and objects below him.

FULL TILT

Faye's spell "Full Tilt" (p. 28) gives Keldy a brief boost of speed, allowing him to unleash a flurry of strikes that ends with a punishing final flourish.

TRAPPING WITH THE WHIP:

 button

To trap an enemy or object in front of you, press the  button to extend the whip and snatch your target. Press the  button when you are ready to release it.

TARGET: button (Hold)

Holding the  button will switch the screen to target mode. You can then, using the left analog stick, move the cursor frame to select a target. Press the  button again to extend the whip and grab your target. To return to normal camera mode, press the  button.

WHEN YOU HAVE SELECTED A TARGET, THE CURSOR FRAME TURNS RED.

THEN WHIP OUT YOUR WHIP AND SNATCH YOUR QUARRY!

TOSS: button → button

After capturing a foe or object with your whip, you can toss it by pressing the  button a second time. This can damage the one being thrown as well as any enemies or objects in its path. Your throws will automatically be directed at nearby foes or objects, but you can guide the throw yourself by using the left analog stick as you toss.

ACTIONS: WEAPONS, CONTINUED

TWIRL: button → button

You can spin whatever you catch with your whip by pressing the  button. (Some enemies become dizzy when you do this.) Throw spinning objects at foes to inflict damage. If you twirl an object numerous times, it can spin so fast that it creates a shock wave around it, extending its area of attack.

NOTE: Your whip level must be 2 or higher to perform this action. Depending on your level, you may be unable to twirl certain foes or objects.

KNOCK ABOUT: button → button

By pressing the  button when you have something trapped in your whip, you can knock it around and wreak havoc on everything in Keldy's vicinity, including the enemy or object already in his grasp. You can direct the knocking about by using the left analog stick as you press the  button.

NOTE: Your whip level must be 3 or higher to perform this action.

WHIP LEVEL

As your whip level rises, so do the power and abilities of your sword, whip, and slingshot. But remember, your whip level is not retained after clearing a chapter.

RAISE YOUR WHIP LEVEL TO INCREASE:

Sword	Number of strikes in a combo.
Whip	Foes and objects you can catch. Types of possible whip actions.
Slingshot	Number of consecutive pebble shots.

FIRING THE SLINGSHOT: button

Press the  button, and the slingshot will automatically aim and fire at an enemy or object in front of you.

TARGETING: button (Hold)

Hold the  button to enter target camera view, and select a target in the same manner as when using the whip (p. 17). Once you've chosen a target, press the  button again to fire the slingshot. Press the  button to return to normal camera view.

NOTE: You can move Keldy in target mode by holding the **L1** button and pushing the left analog stick.

SWITCHING AMMUNITION: left/right directional buttons

The slingshot uses two forms of ammunition: pebbles and 8 kinds of hexorbs (p. 28). Use the left and right directional buttons to scroll through your available ammo.

NOTE: This action can be performed by a second player (p. 20).

PEBBLES:

HEXORBS:

RESTOCKING HEXORBS

Whenever you encounter a spirit in the field, he or she will give you a supply of their own elemental hexorbs. Sometimes you'll find them hiding in objects nearby.

NOTE: You cannot hold more than the hexorb maximum specified for each elemental.

ALSO: All hexorbs reset to zero at each chapter's end.

ACTIONS: FAYE'S MAGIC

Thanks to Faye's magic abilities as a spirit child, she is able to cast a variety of spells (p. 28) on Keldy. You can even get a friend to work with you on this!

FAYE'S MAGIC: **R1** button

You can use Faye's magic by pressing the **R1** button to cast a spell and consume the amount of MP (p. 13) indicated in the list of spells. Some spells boost Keldy's abilities or restore some HP. The number and type of spells available increases with Faye's magic level, but that level resets to 1 at the end of each chapter.

CHANGING FAYE'S SPELLS: up/down directional buttons

Use the up and down directional buttons to scroll through Faye's available spells.

TWO-PLAYER CO-OP PLAY

A second player can assist you if you insert another controller into controller port 2. This gives your partner control over the selection and casting of Faye's spells and allows him or her to scroll through slingshot ammunition for you. (Controls are the same as for player 1.) Having help like this in a pinch can be a real timesaver, especially when the fighting gets frantic.

NOTE: The second player is limited to the actions listed above.

ACTIONS: OTHER CONTROLS

Here are some other features designed to assist you with both offense and defense. With them you'll be able to assess your situation quickly and make every shot count.

TARGET ENEMY/TARGET OBJECT:

L2 button/ **R2** button

Press the **L2** button to target the closest enemy; press the **R2** button to target the closest object. You can target with the whip or slingshot regardless of the direction Keldy is facing. Use the right analog stick to toggle between targets. To release the target, press the **L2** button (or **R2** button) once more.

ADJUST THE CAMERA: right analog stick

Move the right analog stick to change the camera angle around Keldy. Use this feature to keep careful watch over his surroundings. Bear in mind that in target mode, the camera will automatically center its view on the targeted enemy or object.

OBJECTS

Every area of the game is filled with objects. You will find many of these items very useful in forming your strategy to help Keldy achieve his goals.

WHAT CONSTITUTES AN "OBJECT"?

In each chapter section, Keldy will encounter rocks, logs, fruit, and the like. Keldy can interact with such objects by moving or striking them. He can even use them to inflict damage on his enemies. Explore the myriad objects in the game and discover new ways to use them.

MOVING OBJECTS

Keldy can move an object by blocking (p. 15) and moving toward it. He can push it slowly, give it a good shove, or send it flying by pressing the  button.

NOTE: Some objects may be too heavy to move.

ATTACKING OBJECTS

Keldy can damage objects with his sword or slingshot. He can also use his whip to toss them (pp. 16-19). Just as an enemy has an HP gauge, an object has a gauge indicating its remaining durability. When this runs out, the object breaks.

OBJECTS – Here's a sampling of the objects you'll encounter.

Barrel

Light and fairly easy to break, barrels sometimes contain useful items.

Rolling Stone

Large and heavy rocks that can be pushed down slopes to panic enemies.

Diceberry

Feeling lucky? Roll the dice and something "lucrative" may come.

Pillar

Striking such columns can reduce them to rubble and bring down supported items.

Hay Roll

Lightweight straw bundles that can be thrown far afield or rolled downhill at enemies.

Wobble Tree

An unstable plant. The slightest jolt will bring its fruit tumbling down.

Bumpkin

After falling from the tree, this vegetable's internal timer counts down to detonation.

Rocket Papaya

After falling from the tree, this fruit launches in seconds, zooming in Keldy's direction.

Boombloom

Unassuming but deadly, this flower will set ablaze all who dare touch it.

PANIC!

You can build up Keldy's strength—and dispatch hordes of enemies quickly and easily—by sending them into a panic!

PANIC LEVELS

Enemies panic when they are startled or struck by objects. The numbers above their heads indicate their levels of panic. Foes are completely vulnerable to attack when they are in a state of panic, so do as much damage as you can.

NOTE: The amount of shock or panic caused by objects varies with their size and weight.

To make enemies panic:

- Drop an object near them!
- Knock an object or foe into them!
- Shoot an elemental hexorb at them!
- Hit them with Flaming Saber or Frozen Saber (p. 28)!

NOTE: Not all techniques work on all foes.

ACQUIRING MEDALS AND ITEMS

Attacking panicking foes causes them to drop medals and lucre (p. 26). Defeating them while they are still panicked will likely yield a recovery item, such as a gumdrop. The higher the panic level, the greater the probability the foe will drop the good stuff.

CROWNING ENEMIES

When a foe's panic level exceeds 99, a crown appears over his head. Defeating crowned enemies produces higher level medals.

STARTLE FOES BY HITTING THEM WITH OBJECTS.

THEY'LL PANIC, BECOMING VULNERABLE TO ATTACK.

Panic level

An enemy's panic level decreases over time.

EMBLEMS

You can improve Keldy's abilities by activating emblems. Some can nullify status ailments or boost certain stats.

THE NUMBER OF EMBLEMS YOU CAN ACTIVATE WILL INCREASE OVER TIME.

WHAT ARE EMBLEMS?

Emblems are items that enhance Keldy's abilities when activated. If you have emblems, an emblem activation screen will appear at the start of each chapter, allowing you to select which emblems you'd like to use. You can also activate emblems at the start of SELECT CHAPTER mode (p. 5) or at the emblems menu (p. 30) in BATTLE ARENA mode.

ACQUIRING EMBLEMS

Emblems can be bought at the general store (p. 30) in the arena, or may be obtained by meeting certain criteria in the game. For example, acquiring lots of medals or lucre can earn you emblems. Concentrate on panicking enemies for quick loot and emblems.

SAMPLE EMBLEMS

	Frenzied Fighter	Widen attack range.
	Novice Swordsman	Boost attack power a bit.
	Stone Sentinel	Boost defense a bit.
	Knight's Marksman	Boost pebble power a bit.
	Ogre Knight	Boost max HP a bit.
	Apprentice Sorcerer	Boost max MP a bit.
	Treasure Hunter	Items drop more often.
	Niccolo's Protégé	Panic produces more lucre.

NOTE: This is just a sampling of the many emblems available.

ITEMS

ITEMS – Items can be found in objects or won from foes.
The following are just some of the goodies out there.

	Gumdrop Restores 25% of max HP.		Choco-chomp Restores 50% of max HP.
	Green glob Restores 25% of max MP.		Blue blob Restores 50% of max MP.
	Honey brew Fully restores HP and MP.		Angel's grail Revives Keldric once if his HP reaches zero.
	ATK medal Raises attack power and increases whip level.		MP medal Raises max MP and increases Faye's magic level.
	HP medal Raises max HP.		Pet egg Contains a pet to be used in the battle arena (p. 31).
	Special key An important key needed to gain access to the next stage.		Ordinary key A key required to open doors to other areas of a stage.
   Lucre (money) Used to buy items at the general store (p. 30). Color signifies denomination.			

NOTE: Items in **red** must be retrieved by Keldy. Those in **green** are acquired automatically.

STATUS AILMENTS

Whether the result of attack or magic spells, Keldy and his enemies are vulnerable to certain physical or mental effects known as “status ailments.” Although these effects are only temporary, they can render the victim momentarily helpless.

STATUS AILMENTS

	Poisoned The afflicted fighter gradually loses HP until the poison wears off or is removed by Faye's “Purify” spell.
	Petrified The afflicted body turns to stone and is unable to move. Although damage taken is reduced, in rare cases HP may drop to 1.
	Paralyzed The body “falls asleep,” stunned and thoroughly immobilized.
	Dizzy Mind and body are unsteady and unresponsive until a foe's attack jars the senses, restoring equilibrium.
	Frozen Chilled to the bone and turned into a snowman, the affected party becomes stiff and may even slide downhill.
	Burning Engulfed in flames, the target cannot attack as he frantically tries to put out the fire, gradually losing HP in the process.
	Blinded Enveloped in darkness, the victim is still able to fight, but only with limited visibility.
	Confused The mind gets goofy, and intentions of direction are reversed.
	Panicked (p. 24) Foes become completely defenseless and vulnerable to attack. Note: Only enemies panic.

SPIRIT POWER

Hexorbs fired from the slingshot (p. 19) and spells cast by Faye (p. 20) all constitute spirit power. Use them as each situation demands.

ELEMENTAL HEXORBS — Numbers indicate max hexorbs of each type.

	Salamander	16	Can burn foes and set flammable objects on fire.
	Undine	16	Can freeze objects and turn foes into snowmen.
	Jinn	8	Creates a tornado, sending items and enemies flying.
	Gnome	8	Produces a magnetic force to draw in foes and objects.
	Dryad	12	Emits a cloud that paralyzes enemies.
	Shade	12	Emits a mist that poisons opponents.
	Luna	12	Emits a fog that confuses enemies.
	Wisp	12	Blinds enemies with a bright light.

FAYE'S MAGIC — Faye can cast a number of spells depending on her magic level (p. 20).

Note: You can have a second player control Faye's magic (p. 20).

	Power Up	LV.1	Briefly boosts offense.
	Aegis	LV.1	Briefly boosts defense.
	Purify	LV.2	Removes status ailments.
	Healing Light	LV.2	Restores some of Keldy's HP.
	Full Tilt	LV.3	Briefly boosts attack speed (p. 16).
	Frozen Saber	LV.4	Imbues Keldy's sword with the elemental power of ice.
	Flaming Saber	LV.4	Imbues Keldy's sword with the elemental power of fire.

BATTLE ARENA

After you're accustomed to fighting in the field, test your mettle in the battle arena. Here you can face off against a variety of enemies in 32 different venues.

WHY A BATTLE ARENA?

Arena bouts offer players an opportunity to improve their fighting skills in an enclosed environment apart from the normal flow of the game. Here you can also enjoy the opportunity to team up with monsters and meet new challenges.

PETS

Pets are monsters that fight on Keldy's side in the battle arena. These allies are obtained by opening pet eggs, which may be acquired as items in the field during the game or purchased at the arena general store.

NOTE: Keldy's sword and slingshot will not affect his pets, but rebound damage from foes or objects will, so beware.

STARS INDICATE A PET'S ABILITIES. MORE STARS MEAN A STRONGER ALLY.

PETS CAN BE EASILY IDENTIFIED BY THE RING OF LIGHT AROUND THEIR FEET.

GAMEPLAY TIPS

Hopelessly stuck with nowhere to go? If you find yourself frustrated, refer to these tidbits of wisdom for inspiration...

LOST YOUR WAY, YOU SAY?

If you aren't sure where to go next, first check the radar on the upper right of your screen. The spot marked in yellow is your current destination. If you keep Keldy still for a moment, a blue arrow icon will appear, indicating the direction he should head. Be alert to doorway or mechanism hint icons that may require Keldy's action...

Arrow icon

Hint icon

THE RIGHT WEAPON FOR THE RIGHT JOB!

Keldy has three weapons at his disposal, each with its own benefits. Keep this in mind and use them to your best advantage.

FOR MOST IMMEDIATE THREATS, A TRUSTY SWORD WORKS BEST!

TO PANIC ENEMIES NEARBY, GIVE A STURDY WHIP A TRY!

AND FARAWAY OR FLYING FOES? OH, A SLINGSHOT CAN REACH THOSE!

FIGHTING EFFECTIVELY

Randomly hacking and slashing will not make Keldy stronger. Selective use of weapons and objects in an area, along with an effort to panic (p. 24) foes before an attack, will yield far better results—more medals and less chance of getting hit.

TOSS A TWIRLED OBJECT AT A GROUP OF ENEMIES TO MAKE THEM PANIC, THEN...

ATTACK 'EM ALL AT ONCE! YOU'RE SURE TO GET LOTS OF LUCRE AND MEDALS.

ELEMENTAL ASSISTANCE

The easiest way to panic foes or impair them with status ailments is to hit them with hexorbs from your slingshot. However, because the number of hexorbs available in a section is limited, use them thoughtfully and sparingly.

TRAPS AND DEVICES

Several mechanisms are scattered through the game's chapters. Keldy must figure them out to avoid danger or reach the next area.

LADDERS: USE THE LEFT ANALOG STICK TO CLIMB UP AND DOWN LADDERS.

LEVERS: STRIKE A LEVER WITH YOUR SWORD TO ACTIVATE A DEVICE.

SWITCHES: HOP ON A SWITCH TO OPEN A DOOR OR PASSAGEWAY.
